## **Wilson-Hurd to implement a new ERP system on August 1st**

**Wausau, July 26, 2017** – Wilson-Hurd, a division of Nelson-Miller, is pleased to announce that on August 1st, we will change to a new Enterprise Resource Planning (ERP) system, EPICOR. The EPICOR software will provide our team with an improved level of resources to effectively process and manage your orders.

Over the past several months, we have spent a significant amount of time training our employees as well as running preliminary tests to make this transition as smooth as possible. These pre-launch steps have provided our staff with a great level of knowledge of our new system. Our parent company, Nelson-Miller, also uses the EPICOR system and will be an excellent resource for our team as we move to the new system.

For our customers, moving to this new ERP system, should be rather transparent to you. The main item that will change will be the appearance of documentation related to your orders, such as order acknowledgements, packing slips, and invoices. These forms will take on a new look but will retain the key elements of information required.

We are optimistic about the transition to the EPICOR system and ask for your patience in working with our team during this change. Should you have any questions or experience any issues, please don't hesitate to contact your Wilson-Hurd Customer Service Representative at 1-800-950-5013.

Thank you for being a valued customer and for your support during our implementation of the new ERP system.

### **About Wilson-Hurd**

Since 1904, Wilson-Hurd has served many markets including automotive, industrial controls, medical, telecommunications, appliance, food equipment manufacturers, point of purchase displays and cosmetic industries. We have grown from supplying metal bag holders and remembrance items, to offering complex custom-manufactured products. Our mission is to be the most respected provider in the markets served, consistently delivering solutions that yield exceptional value.
