- Responsive to customers' needs
- Flexible manufacturing processes
- Cellular manufacturing
- Electronic Control Product division certified to ISO 9001:2008
- Metal & Plastic product division certified to ISO 9001:2008
- Medical Contract Manufacturing division has Class 10K & Class 100K clean room capabilities, & is also certified to ISO 13485
- Medical Contract Manufacturing division utilizes FDA compliant quality records system

Medical Contract Manufacturing

We'll take care of the technical details,
so you can focus on saving lives.

Wilson-Hurd offers medical contract manufacturing services within our ISO 13485 and FDA registered facility. We are familiar with many leading medical device owner's validation protocols (IQ, OQ, PQ) and can assist companies with developing their own process validation and DOE protocols. From assembly through packaging, Wilson-Hurd can tailor cost-effective manufacturing services to meet your product's requirements.

We provide the best in-class medical contract manufacturing services from PCB board assembly, box build, testing, and fulfillment services. Product categories we specialize in include: disposable printed electrodes for EKG sensor arrays, hydrogel based printed sensors for respiratory monitoring, device assembly and manufacturing, and medical quality cables.

Processes

- Graphics printing
- Welding
- Heat staking
- Laser etching
- Sterilization coordination
- Final acceptance activities
- Semi-automated assembly
- Final and custom packaging
- Tray sealing
- Traceability systems
- Material planning and procurement
- Incoming inspections of materials

Quality

- ISO 13485:2012 certified
- Quality record system that complies with 21 CFR 820
- Facility registered within the FDA FURLS medical device contract manufacturers database
- Facility inspected by FDA representatives
- Demonstrates current Good Manufacturing Practices as required by Section 520 of the Food, Drug, and Cosmetic Act and further defined in Part 820 of Title 21 of the Code of Federal Regulations
